# Field to Invoice Solutions

Get invoices directly from the oilfields faster

**Solution overview** 

Send e-Invoices and supporting tickets to your end customer(s) including Cortex and e-Marketplaces such as OpenInvoice, Ariba, and any other delivery points including other EDI capable customers via the B2BE EDI and FieldFX solution.

The Field to Invoice (FTI™) plug-in is a fully automated delivered solution that instantly converts and seamlessly transmits electronic invoices from the FieldFX system to B2BE and on to your customers. No manual intervention so you get paid on time and in full helping to better manage cash flow.

**Key Features** 

## FieldFX plugin

Seamlessly creating the link between FieldFX's oilfield solution and B2BE so invoices and tickets created in the field can be sent to B2BE and to your customer seamlessly.

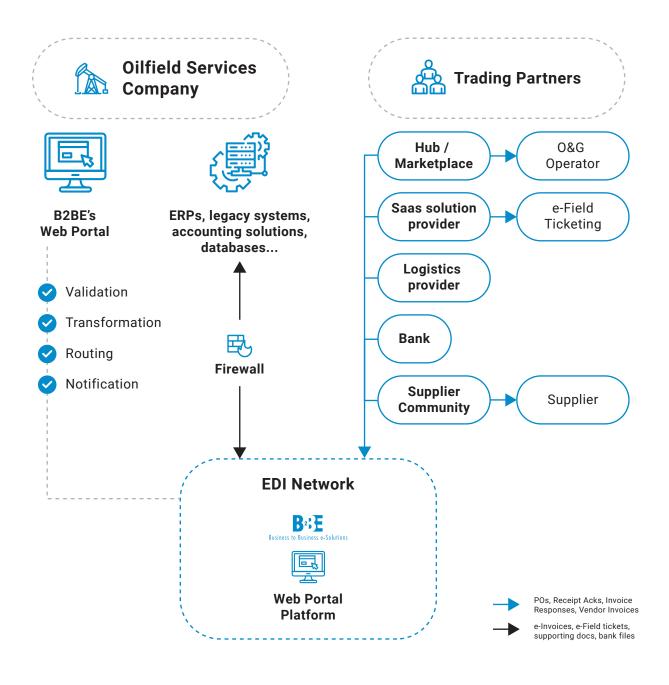

# **Purpose built**

Send and receive PIDX XML data exchanges for the oil and gas sector including pre-built integration connectivity with e-Marketplaces such as OpenInvoice and Ariba.

# No touch billing

No need to touch or review invoices and tickets by accounts receivable specialist. The invoice data and supporting tickets are quickly converted into marketplace or direct customer EDI formats, routed, and delivered.

# What you can achieve with B2BE's Field to **Invoice solution**

# **Cloud Based**

A Single tenant, centralized security, hosted testing and production environments that are all configurable and scalable.

# **Maximized DSO**

Shrink your time-to-invoice to zero days! Since the FieldFX Invoicing module completes the quote-to-cash process; ensuring a four-way match between the price book, quote, ticket, and invoice, the e-Invoices and supporting documents are instantly sent to the end customer following approval.
