

E-CATALOGUE

NEED TO EXPAND YOUR SALES CHANNELS? NEED A COLLABORATIVE ENVIRONMENT TO MANAGE CATALOGUE CONTENT?

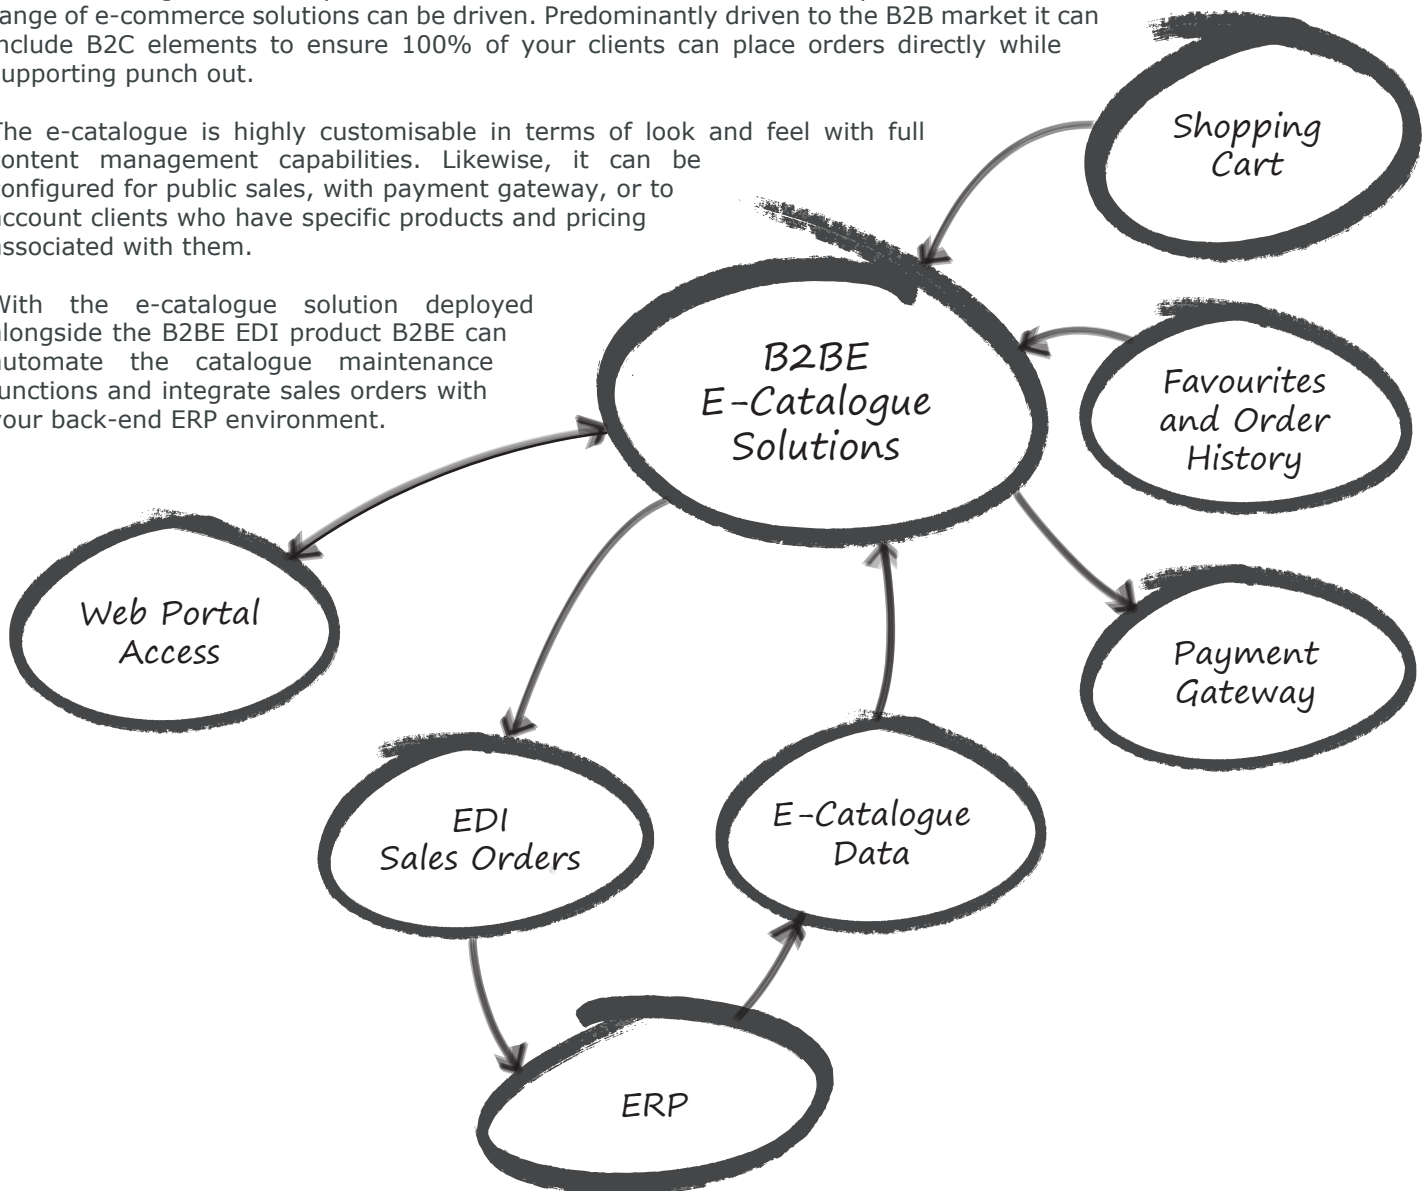

B2BE's e-catalogue provides the basis by which you can go to market, developing new sales channels and supporting online sales. Enable punch out capabilities for your clients or to exchange data with suppliers. It is a highly configurable and dynamic cataloguing solution.

SOLUTION OVERVIEW

B2BE e-catalogue solution provides B2BE clients with a customisable platform from which a range of e-commerce solutions can be driven. Predominantly driven to the B2B market it can include B2C elements to ensure 100% of your clients can place orders directly while supporting punch out.

The e-catalogue is highly customisable in terms of look and feel with full content management capabilities. Likewise, it can be configured for public sales, with payment gateway, or to account clients who have specific products and pricing associated with them.

With the e-catalogue solution deployed alongside the B2BE EDI product B2BE can automate the catalogue maintenance functions and integrate sales orders with your back-end ERP environment.

E-CATALOGUE

RELATED PRODUCTS

B2BE's e-catalogue solutions utilise several B2BE products to create an e-catalogue online application. B2BE's e-catalogue solutions can utilise all, or in part, any of the following products to create the exact solution your organisation needs to manage your e-catalogue requirements.

EDI
