

INVOICE RECEIPT

SOLUTIONS DATA SHEET

ENABLE 100% ELECTRONIC INVOICE RECEIPT, NO MORE PAPER!

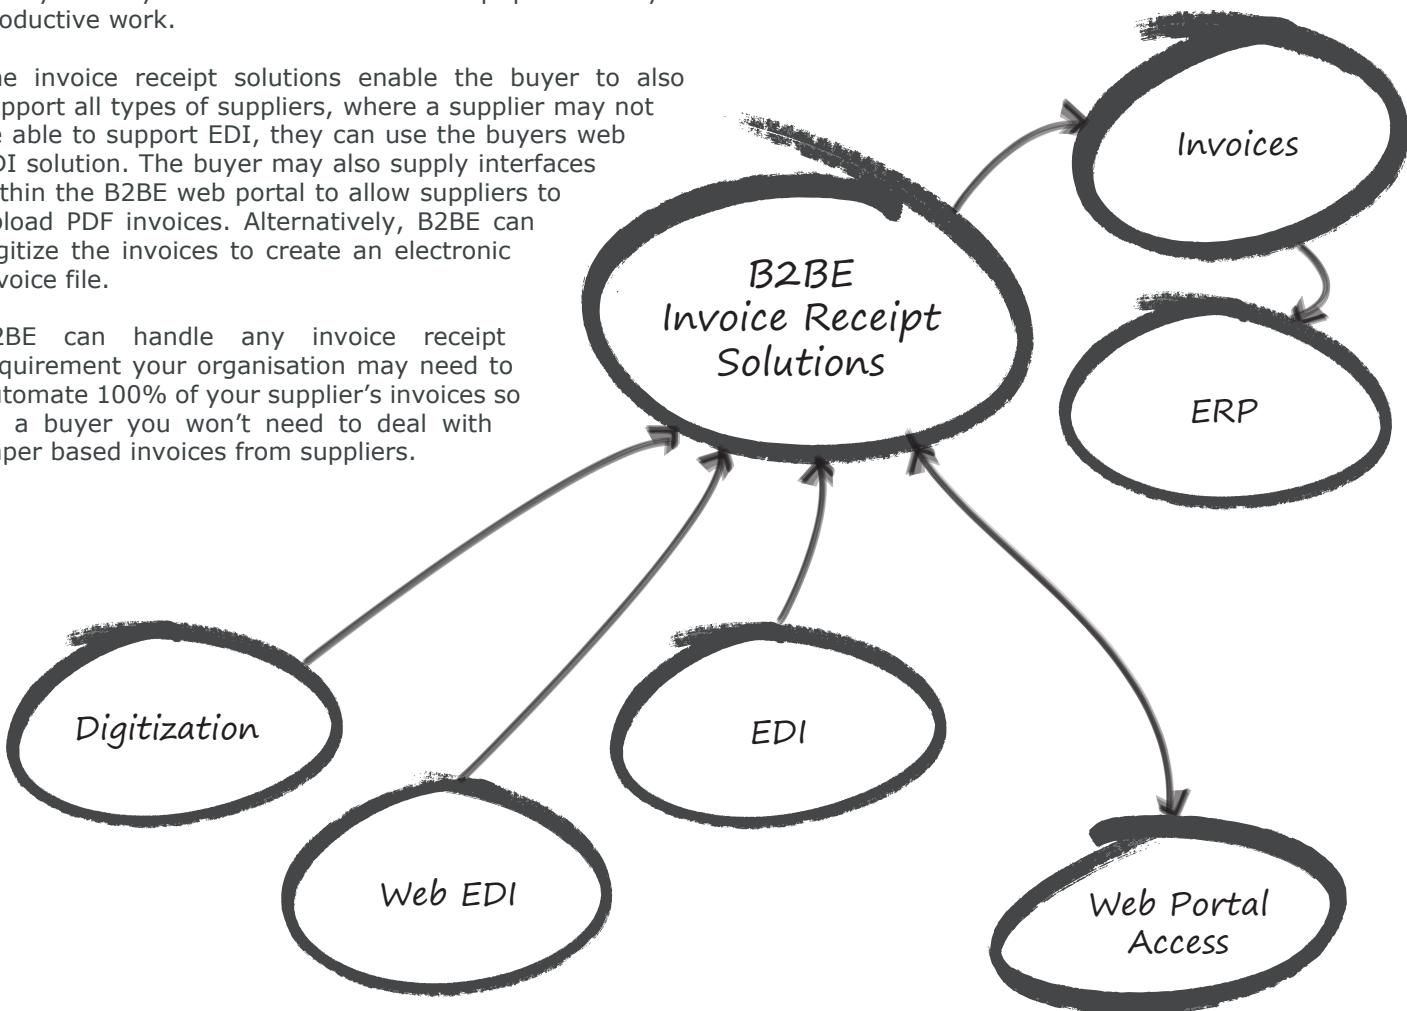

Whether you're a buyer or a supplier B2BE's invoice receipt solutions allow each organisation to choose the approach they want to use to transmit and receive invoices. Electronically via EDI, online via web EDI or document upload and keying workflow or B2BE can digitize a supplier's paper invoices. B2BE has all the invoice processing channels covered.

SOLUTION OVERVIEW

B2BE's invoice receipt solutions allow you to receive invoices from your suppliers in any number of ways to fully automate the invoice receipt process so you can free resources to do more productive work.

The invoice receipt solutions enable the buyer to also support all types of suppliers, where a supplier may not be able to support EDI, they can use the buyers web EDI solution. The buyer may also supply interfaces within the B2BE web portal to allow suppliers to upload PDF invoices. Alternatively, B2BE can digitize the invoices to create an electronic invoice file.

B2BE can handle any invoice receipt requirement your organisation may need to automate 100% of your supplier's invoices so as a buyer you won't need to deal with paper based invoices from suppliers.

RELATED PRODUCTS

B2BE's invoice receipt solutions utilise several B2BE products to create a fully automated invoice receipt solution. B2BE's invoice receipt solutions can utilise all, or in part, any of the following products to create the exact solution your organisation needs.

EDI

Do you want to embark on an electronic EDI based on-boarding solution to trade with your suppliers? B2BE has all your bases covered with B2BE's EDI solution.

Digitization

Still receiving paper invoices from your suppliers? Why not get them digitized so you no longer need to process, manage and handle paper, everything in an electronic format and online?

Web EDI

The B2BE web EDI product is an online product designed to enable electronic trading of business documents, including invoices, from a buyers' perspective while providing a simple approach to suppliers who can't support full back-end to back-end EDI integration.

Web portal

The B2BE web portal is an online hosted environment that provides access to a range of B2BE's accounts payable applications, modules, documents and data which is highly customisable and configurable to enable you to collaboratively interact with your suppliers.
