

E-INVOICING SOLUTIONS

SOLUTIONS DATA SHEET

AUTOMATE YOUR E-INVOICING ENVIRONMENT SO YOU HAVE NO MANUAL PROCESSES!

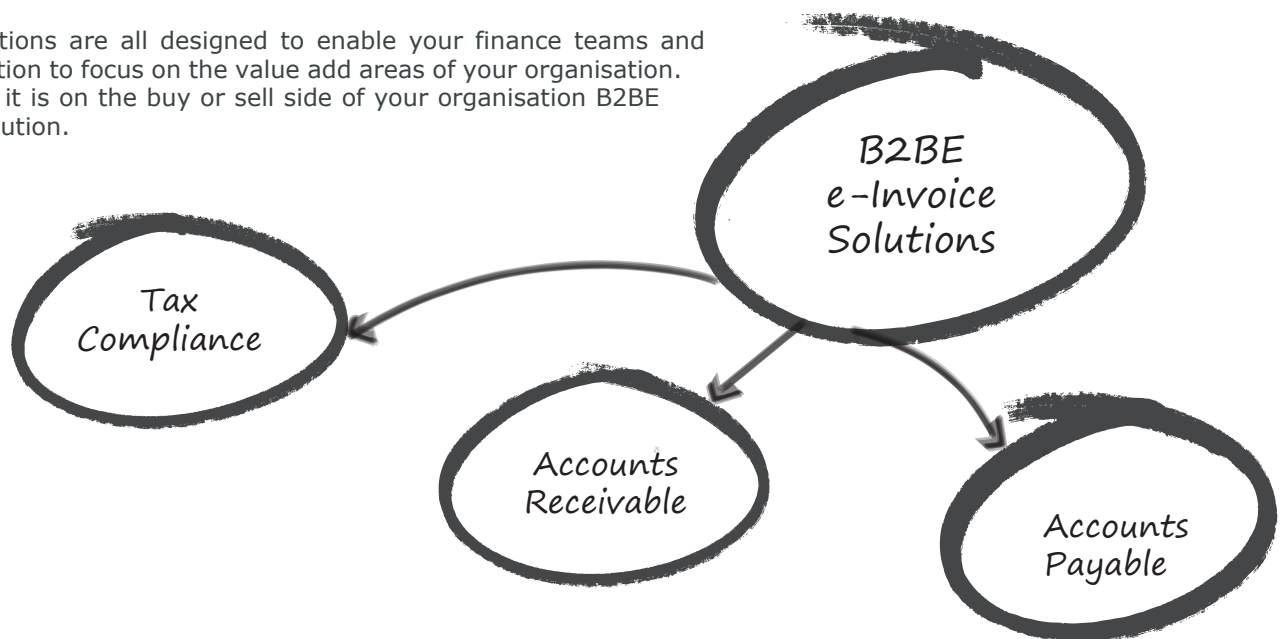

Automate and streamline your organisations e-invoicing environments to improve processes, increase throughput and allow accounts payable and accounts receivable environments to focus on adding value.

SOLUTION OVERVIEW

B2BE has a broad range of e-invoice solutions to manage document receipt and distribution to more complex areas within the finance supply chain area of your organisation.

B2BE's range of e-invoice solutions have been designed to improve processing efficiencies through automation providing greater levels of control, compliance and auditability. The e-invoice solutions are also designed to plug and play with the B2BE accounts payable and accounts receivable solutions.

The solutions are all designed to enable your finance teams and organisation to focus on the value add areas of your organisation. Whether it is on the buy or sell side of your organisation B2BE has a solution.

RELATED SOLUTIONS

If you're looking for a way to streamline, automate and help drive down your e-invoicing costs B2BE offer a range of solutions to do this in part or entirely.

Tax compliance

B2BE's e-invoicing solutions enable your organisation to meet tax compliance regulations set out by legislative requirements in many regions. Whether it's signed emails or being able to provide invoice partner lists, invoice summary or tax summary details the B2BE online environment can provide this as a standard part of the B2BE e-invoice solutions.

Accounts payable

How much does your organisation want to automate and streamline your accounts payable environment? B2BE's solutions can automate in part or in total your accounts payable functions to improve throughput and accuracy.

Accounts receivable

How much does your organisation want to automate and streamline your accounts receivable environment? B2BE's solutions can automate components of your accounts receivable functions to improve throughput and accuracy.

E-INVOICING SOLUTIONS

SOLUTIONS DATA SHEET

RELATED PRODUCTS

B2BE's e-invoicing solutions utilise several B2BE products to create a fully automated document transmission solution which is combined with a range of online applications. B2BE's e-invoicing solutions can utilise all, or in part, any of the following products to create the exact solution your organisation needs to manage your e-invoicing requirements.

EDI

Do you want to embark on an electronic EDI based on-boarding solution to trade with your suppliers? B2BE has all your bases covered with B2BE's EDI solution.

Digitization

Still receiving paper invoices from your suppliers? Why not get them digitized so you no longer need to process, manage and handle paper, everything in an electronic format and online?

Email

B2BE's email gateway allows your organisation to send automated data to B2BE for automated formatting and on-sending via email.

B2BE also manages digital email invoice signing requirements so when you send invoices via email they're compliant in all regions requiring the functionality.

Facsimile

B2BE's fax gateway allows your organisation to send automated data to B2BE for automated formatting and on-sending via fax.

Print management

B2BE's print management product allows your organisation to send data to B2BE for automated formatting, collation, printing and transmission via post.

Three-way matching

B2BE's three-way matching solution is a fully outsourced, configurable supplier invoice matching system designed specifically to improve your match rates, automate processes and increase invoice volume throughput.

Web EDI

The B2BE Web EDI product is an online product designed to enable electronic trading of business documents from a buyers' perspective while providing a simple approach to suppliers who can't support full back-end to back-end EDI integration.

Web Portal

The B2BE web portal is an online hosted environment that provides access to a range of B2BE's accounts payable applications, modules, documents and data which is highly customisable and configurable to enable you to collaboratively interact with your suppliers.

From the web portal you're also able to access the tax compliance application.

Invoice partner list

The partner list logs trading partners who your organisation trades with electronically based on the commencement date and the last date an invoice was transmitted to meet tax authorities' requirements.

Invoice summary

The invoice summary provides tax authorities with a full list of electronic fiscal transactions at an invoice level that B2BE has issued or received on behalf of our clients.

Invoice tax summary

The Invoice tax summary provides tax authorities with a full list of fiscal transactions at an invoice and invoice line level that B2BE has issued or received on behalf of our clients.
